

Call for Expressions of Interest – Android Mobile App and Admin Dashboard Development

Network for Active Citizens (NAC) is a member based national organization established to enhance citizens’ participation in governance and community development programs. The organization is a nonpartisan network of citizens who aspire to create the change they want to see in their community through leadership and improved service delivery in the key focus areas of; education, health and economic empowerment using ICT alongside other approaches.

The overall goal of the AC-Network is to integrate trending innovations of ICT to enhance citizen’s participation in community leadership and improved service delivery in education, health and livelihoods.

Assignment Overview

Network for Active Citizens (NAC) seeks services of a competent technology firm to develop the “Youth Go Budget App”, an Android Mobile App that will be central in the collection of Youth Views during the budget consultation process in line with the 5 demands of the youth as stipulated in the National Youth Manifesto 2016-2021.

The App shall also have a web interface for viewing and extracting data reports and, for inputting data and data categories. It shall be used by youth (local government and CSO leaders) across the country to submit budget proposals on the 5 priority issues in the National youth Manifesto with a bias on the agriculture sector allocations during the budget cycle processes.

The information Collected through the App shall be premised on the Government budget Views collection tool and, presented on a web portal inform of info graphics, and tabular data that can be downloadable pdf and excel formats respectively.

Project Deliverables

The contracted firm shall present the following upon completion of the App:

1. A functional Mobile App uploaded on Google App Store.
2. A user friendly online / web dashboard with data administration function.
3. Training of NAC staff on how to carry out administration Tasks on the web dashboard.
4. Training of NAC staff on how to collect (download) / interpret collected Data’s info-graphics.
